# 2020 Airway Symposium

November 13-15, 2020 ~ Miami, FL

## Program Summary:

What procedures, appliances and training methods are being utilized to enhance airways and promote proper breathing? A group of clinicians from around the world are uniting in Miami to share with you their clinical management of patient's airway issues, from toddlers to adults.

This meeting will focus on a few main topics:

- The importance of nasal breathing will be thoroughly discussed and explained.
- How to set up your Interdisciplinary team of providers will be outlined.
- Focus on clinical treatment planning and outcomes.

Never has a meeting been presented that addresses clinical treatment protocols for all age categories. So whether you are a Myofacial therapist, ENT, Surgeon, Pediatrician, Family Physician, Pediatric Dentist, General Dentist, Speech Therapist, Sleep Medicine Specialist, Orthodontist or person of interest, you truly don't want to miss this Symposium dedicated to definitive treatment of the airway.

Dr. Douglas Knight, Program Chairman
